## Green Business Energy Switching

*The Court Pool and Snooker Club  
Case Study*

[www.greenenergyswitch.co.uk](http://www.greenenergyswitch.co.uk)

## BACKGROUND

The Court Pool and Snooker Club, based in Peterborough, wanted to save money but still be eco-conscious and environmentally friendly where possible. Rising energy prices were putting pressure on the business, and they needed a straightforward way to cut costs without the hassle of trawling through multiple supplier quotes. That's where Green Energy Switch were a perfect fit.

## SOLUTION

A quick Google search led The Court Pool and Snooker Club straight to local specialists Green Energy Switch, the perfect simple and eco-friendly solution. All they had to do was share a copy of their recent energy bill, and our expert team took care of the rest.

We compared the market, secured the most suitable deals, and tailored every detail to fit their business needs. We also provided a range of options to choose from, covering everything from 12-month contracts to 3-year deals, so the choice was completely up to them. Every tariff offered was 100% renewable and sourced from trusted suppliers.

## RESULTS

<b>Contract Length:</b>	24 months
<b>Annual Saving:</b>	£4,940
<b>Overall Saving:</b>	£9,880 across the contract
<b>Percentage Saving:</b>	28%
<b>Tariff Switched To:</b>	100% Renewable Electricity

The club not only made impressive cost savings but also switched to clean, renewable energy, helping to make their operations more sustainable for the future.

## AT A GLANCE

### OBJECTIVE

The Court Pool and Snooker Club wanted to cut rising energy costs while remaining eco-conscious and switching to renewable energy.

### SOLUTION

Green Energy Switch handled the process from start to finish, comparing the market and offering a choice of flexible, 100% renewable tariffs tailored to the club's needs.

### RESULTS

- 24-month contract
- £4,940 saved per year
- £9,880 total saving
- 28% reduction on energy costs
- Switched to 100% renewable electricity

# WHY GREEN ENERGY SWITCH?

We make switching business energy quick, easy and completely stress free. All we need is a copy of your recent bills and our team will do the rest. We search the market, using only trusted suppliers and present you with a range of the best options, from short 12-month deals to longer-term contracts. There is never any obligation to go ahead and every tariff we recommend is 100% renewable.

Unlike many suppliers or comparison websites that hide hefty commissions, we are fully transparent. Any commission we receive is always clearly shown on your quote so you know exactly what you are paying for. Our service is free to use and designed to save your business both time and money while helping you reduce your carbon footprint. With over 18 years of experience in the energy industry, you can trust us to deliver a smooth and reliable switching process.

## WE ARE PROFIT FOR PURPOSE

What truly sets us apart is our profit-for-purpose model. Unlike traditional brokers, we do not exist to maximise profit for shareholders. Instead, every profit we generate is gift-aided to PECT, our parent environmental charity.

This means that when you switch with us, you are not only saving money and accessing green energy, but you are also supporting real environmental change. PECT invests in projects that make a lasting difference, from planting over 131,000 trees to delivering community initiatives that cut carbon and improve local biodiversity.
